SALES ENGINEER

DUTCH DESIGN COFFEE SYSTEMS

DUTCH DESIGN

Sales Engineer Dutch Design coffee systems

As a Sales Engineer you are focused to guarantee customer satisfaction and deliver coffee like a Barista would. Together with sales and other internal departments, you ensure that customers will benefit from the products and services that Veromatic International BV can offer. In addition to the wide range of coffee systems, also other hot and cold beverage systems are developed and produced. You will be involved in innovations with regard to the products, services, processes, technologies from a commercial point of view.

Job description:

- Guaranteeing customer satisfaction by offering support during questions customers might have and introduce solutions;
- Maintain customer relationships and by doing so aware of customer desires;
- Coordinate projects that will lead to optimization;
- Provide external as well as internal training;
- Learn and align on technical system developments in collaboration with R&D;
- Handle the dealer portal (instructions for use, manuals and parts catalog).

Expectations:

- MBO level 3 or 4;
- Technical background (mechanical electronics, mechatronics);
- 3+ years of experience in a technical-commercial position;
- Strong communication skills in Dutch and English;
- Internationally oriented and prepared to travel.

Organization:

“To bring happiness at work” is expressed through the development and production of state-of-the-art systems and by doing so Veromatic offers an excellent quality of drinks. Veromatic International BV was founded in 1991 and is located in Dordrecht. Since its establishment, the organization has developed into an international player of high-quality hot and cold beverage systems.

Terms of employment:

The Collective agreement in the metalworking is applicable. With this job you will be provided with communication devices and a car.

Procedure:

When interested in this position, please send your personal details to hrm@veromatic.com. After the closing date on the 14th of March 2020, you will be informed about the next steps in the procedure.
